Benchmark in Modern Exhibitions

EXPOWORK was founded in August 2003, as the official technical contractor of EXPOATHENS, one of the most modern exhibition centers in Greece.

Due to its successful business model, EXPOWORK started offering exclusive technical support at ATHENS METROPOLITAN EXPO, the largest and newest exhibition and congress center in Athens.

Nowadays, it is also the official House Contractor of Thessaloniki International Exhibition & Congress Center (TIF). Its highly experienced coordination team is responsible for the management of every single exhibition organized (or co-organized) by TIF - HELEXPO S.A. or other organizers of exhibitions/events that take place in venues offered by TIF - HELEXPO S.A.

EXPOWORK's technical support to exhibitions, conferences and events includes a great number of quality services, covers all exhibition needs and secures the smooth running of every event - during its preparation/construction, operation and dismantling.

The growing needs of both organizers and participants in this area have led EXPOWORK's personnel to the implementation of a highly successful, integrated management system, which meets all the needs of their customers and offers high return on their investments and high quality services at the right time.

Advantages

- > Commitment to the exhibition & conference needs
- > Technical expertise
- > Highly specialized and experienced personnel
- > Integrated portfolio of exhibition services
- > Use of modern technical infrastructure and design software programs
- > Excellent knowledge of the exhibition venues due to its exclusive partnership with THESSALONIKI EXHIBITION CENTER and ATHENS METROPOLITAN EXPO

Services

- > Standard and upgraded types of shell scheme stands (OCTANORM system)
- > Furniture and exhibition equipment
- > Floors and carpets
- > Electrical devices and services
- > Digital printings for area branding & signage
- > Audiovisual equipment
- > Rigging services
- > Construction of customized stands
- > IT services - Internet connections
- > Lift services and logistics
- > Security services
- > Cleaning services
- > Water-supply and drainage services
- > Graphic design services
- > Promotional and advertising materials
- > Promotional groups and services
- > Photoshoots - Video Recordings - Live Streaming

EXPOWORK'S customer-oriented philosophy, focus on the exhibitors' needs, expertise and know-how make it a significant contributor to the success of your participation to any exhibition or event.

Consultancy

You are more than welcome to contact us in order to talk about your requirements!

Our highly specialized and experienced personnel are definitely going to offer unique suggestions and successful solutions within your budgets.

Designing Solutions

Our designing solutions reflect our belief that aesthetics and functionality are equally important.

Recognizing the uniqueness of every client, we offer solutions that are targeted to your own personal needs and desires.

Therefore; we guarantee your dynamic presence in the highly competitive environment of exhibitions.

Supervision of your Stand's construction [from the very beginning till the very end]

By constantly monitoring the construction of your Stand, we aim at reducing your stress.

Due to our close supervision, you no longer have to worry about the coordination of the Stand's construction process and its final delivery.

Remarks on the Price-List

For your order to be valid, you should fill out the Order Form with pricing information, stamp and signature. The latter should be sent to us no later than 20 days before the opening of the exhibition via email | orderstif@expowork.gr

The completion of your order requires the full payment of the respective amount by bank transfer to the following accounts (IBAN) and the forward of the deposit slip via e-mail.

PIRAEUS BANK: GR84 0172 2020 0052 0201 8199 548

NATIONAL BANK OF GREECE: GR97 0110 0750 0000 0754 7022 553

ALPHA BANK: GR59 0140 1730 1730 0200 2003 777

EUROBANK: GR58 0260 0980 0009 5020 0587 898

- > The exhibitor holds the full responsibility for his exhibits (including machinery-exhibits) and thus; he must take all the necessary safety measures regarding static and operation.
- > The maximum height of the Stands is determined by the Operation Rules of the exhibition;
- > Exhibition area constructions must be aesthetically pleasing on both sides. In cases of constructions that are higher than 2.5 m, their back sides, which are adjacent to other exhibitor's Stands, should be painted white.
- > Fuse boxes, fire hydrants, water supply wells, electricity supply installations, air conditioning controls, etc. must not be covered and must be easily accessible in case of necessity, malfunction or new connections.
- > All decoration and other works should have been completed one day prior to the opening of the exhibition.

Not Permitted

- > Cutting wood or plasterboards as well as using power-tools and equipment, such as spray paint compressors, anywhere inside the Exhibition Center. Such operations are only permitted outdoors.
- > Concrete constructions, excavations and any kind of drilling and nailing (nails, staples, pins, etc.) on the floor, the pillars, the ceiling and also any other structural parts of the building. The drywalls' friction should be completed with the use of a special absorbent machine while painting with sprays and pistols of suitable cross-section in order to avoid leaving unwanted traces.
- > Drilling/nailing and painting of panels and aluminum frames (for suspending purposes, you may request special hooks from the Exhibitors' Service Desk)
- > Rigging any item from the ceiling or any other structural part of the halls, without any prior approval, requirement or order (Rigging Services).
- > Covering walls and corridors.
- > Any intervention to the electrical installations without prior approval, requirement or order (Electrical Equipment Services)
- > Should you object or disagree to any service provided by EXPOWORK, please inform our Customer Care Department by the end of the exhibition's opening day.
- > Our equipment and services are only provided during the official duration of the exhibition.
- > Power supply to stands whose electrical installations have been completed by the exhibitors' partners and electricians of the exhibitors will only become available after the latter's submission of the necessary documents: the electrical plan and the order form stating the requested power in KW.
(Order Form - p. 18)

Breach of any of the above regulations leading to any damage shall entail its full restoration and compensation -determined by EXPOWORK- will be claimed.

> EXPOWORK bears no responsibility in case of loss, damage, etc. of exhibits during the preparation, operation and dismantling of the exhibition. Security and guarding services are exclusively related to the Exhibition Center's building installations. Therefore;

you are kindly requested to remove all small exhibits or personal belongings (e.g. laptops, computers, TV sets) in the evening of the exhibition's final day.

Standard Booths

Description

The rental of Type 2 Exhibition Stands (with equipment) from TIF - HELEXPO includes the construction of your Standard Booth in accordance with the following characteristics:

- > Aluminum, silver colored octanorm frame, with columns, horizontal girders and filling material of beige colored melamine - 2.5 m. height
- > 30 cm fascia with exhibitor's logo / company name / stand number (1.52 x 0.20 m) at the Stand's open sides (2.20 m in height), with aluminum girders and filling material of flimsy (perforated) PVC
- > Beige colored carpet
- > 2 x 5 mirrored light spots & 1 power socket 500W - 220Volt / 16 m²
- > 1 desk & 3 chairs & 1 small table (regardless of the total space of your Exhibition Stand)

Standard Booths

Photorealistic Virtual Models

2 open-sided Stand

3 open-sided Stand

4 open-sided Stand

Standard Shell Scheme Stands

Clarifications

- > No third parties are permitted to make any electrical installations or constructions within the Type 2 exhibition stands. However; the exhibitor can ask for extra lighting (if need be) by completing and filing the relevant Order Form (*Order Form p. 17*)
- > An electrical switch board, plugs and lightings are necessarily positioned within the stand and cannot be removed or replaced. If you wish their being placed in a particular position, you need to send a plan of your Booth 20 days prior to the exhibition's opening.
- > Orders that concern electrical installation or/and constructions (*e.g. installation or connection of floodlights, storage areas, lighting grid systems*) cannot be executed without a relevant plan (*Electrical Equipment 2 p. 17& 20*). The latter must be submitted at least 20 days prior to the exhibition's opening.
- > Please note that no fixings may be made directly on the wall panels or the exhibits/ furniture. If need be, please contact the EXPOWORK Exhibitor Service Desk and a wide range of solutions will be offered to you. Moreover, all materials must be removed from the wall panels at the end of the exhibition, without causing any damage. The latter always burdens the exhibitor.
- > If a different type of exhibition stand -rather than Type 2- is requested (*such as Type 1 without constructions*) in less than 10 days prior to the exhibition's opening, the exhibitor is additionally charged with the dismantling/decommissioning cost. (*Order Form p. 20*)
- > The construction materials (*necessary for storage rooms, offices, etc.*) and the exhibits/ furniture can also be placed outdoors, as long as the latter are roofed and protected from extreme weather (*e.g. heavy rain, wind*).
- > Any alteration to the carpet color is subject to our products' availability -provided that your order is completed on time- (*Order Form p. 30*)

Custom Made Stands - Special Constructions

Clarifications

- > For Custom Made Stands (Type 1), a prerequisite for the delivery of your exhibition stand's space is the submission of the Exhibitor's Solemn Declaration -verifying the safe operation of all construction works- (*Solemn Declaration p. 35*)
The construction of a two-storey Stand requires the submission of a relevant application, which must be approved. The latter should have been submitted at least 30 days prior to the exhibition's opening and should be accompanied by a static study, as well as a Formal Engineering Declaration, verifying the display's safety.
- > As far as your power supply is concerned, you will need to send us your orders at least 20 days prior to the exhibition's opening, attaching a drawing indicating the exact position of all kinds of electrical equipment and/or installations.

Another prerequisite for the electrification of your Stand is the former submission of an Electrical Plan, stamped by an electrical engineer or the Association of Electricians.

The above mentioned Electrical Plan should state the requested total volume (KW) and type of electric power (1phase/3phase) and the exact position of the Distribution Board. This information should also be mentioned in the Order Form, claiming the need for power supply and the installation of the Distribution Board.

The Order Form is completed by the Exhibitors themselves and has nothing to do with the documents that need to be submitted by the electrician. (*Order Form p. 18*)

The type of the luminaires must be LED.

- > In case the exhibitor places his own Electrical Panel, it must be equipped with escape relay. One-phase Distribution Boards must have the following characteristics: male-ended, blue-type, heavy duty connector 3x32 (if need be, 3x16). Three-phase Distribution Boards must meet the following requirements: male-ended, red-type Legrand connector 5x32 or 5x63 (if need be, 5x16).
- > If such a Distribution Board is not available to your own electrician, you can place your order at EXPOWORK (*Order Form p. 23*)
- > In case the exhibitor does not comply with the above mentioned instructions TIF - HELEXPO reserves the right to immediately seize his power supply.

Custom Made Stands - Special Constructions

Types of Distribution Boards available

- > One-phase Distribution Board with 2 breaker positions up to 2.5 KW (220V, female-ended, blue-type, heavy duty connector 3x32)
- > One-phase Distribution Board with 2 breaker positions up to 4 KW (220V, female-ended, blue-type, heavy duty connector 3x32)
- > Three-phase Distribution Board with 6 breaker positions up to 15 KW (380V, female-ended, red-type Legrand connector 5x32) -for lighting or for lighting + motors
- > Three-phase Distribution Board with 6 breaker positions up to 30 KW (380V, female-ended, red-type Legrand connector 5x63) -for lighting or for lighting + motors

Characteristics of EXPOWORK's (one-phase or three-phase) Distribution Board

- > The requested power cable and the necessary escape/protection relay
- > The single phase panel includes 3 micro automated 16A fuses
- > The three-phase panel includes 6 micro automated 16A and 20A fuses
- > One 220V plug

The single phase current lighting panel will be provided for up to 4 kw (with main fuse 20A) -except for special cases like a single phase current electrical apparatus.

For over 4 kw lighting, a three-phase current electrical panel will be installed according to the requested power (3x25, 3x40, 3x63).

For special cases, when a large power is required, the exhibitor must contact the Exhibitor Service Desk as soon as possible.

A prerequisite for the electrification of your Stand during the set-up and construction period is the former submission of your Order and Electrical Plan, stamped by an electrical engineer or the Association of Electricians.

- > For outdoor spaces, the exhibitor must place the electrical panel to a waterproof location. In case of partial or complete damage to the electrical panel, the exhibitor will be additionally charged with the costs of the repair. Before his departure from the Exhibition Center, the exhibitor must inform the floor manager for the removal of the electrical panel.
- > In case the exhibitor does not comply with the above mentioned instructions or receives unauthorized electrical power and has not submitted a certified and complete electrical plan on time, EXPOWORK reserves the right to immediately seize his power supply without any notice.
- > In Type 1 exhibition areas, carpeting is laid before the special construction of the exhibition area.

Acknowledging full responsibility and being aware of the legal sanctions, I do solemnly declare that:

1. All the information mentioned above is true.
2. In case of construction of a two-storey stand, I will submit a Static Study Plan.
3. I have completed my Stand's construction by my own means and its height does not exceed 3 meters.
4. I follow strictly all current regulations and legislation. All the necessary health and safety measures have been taken, in order to avoid accidents at my staff's or other third parties' expense and to prevent any damage.
5. I personally guarantee that my Stand's construction meets all the technical, safety and static requirements. Furthermore, I declare that I carry full responsibility -both criminal and civil- for (a) any possible bodily injury, (b) any labor or other accident and (c) any damage that may be caused to third parties or this construction, respectively.
6. I undertake the responsibility to remove all construction materials from the Pavilion, after the exhibition's closing -at the predetermined time specified by the organizers- .
